Management and Organisation Questions

Work Package's overall organization

Do u want to mention anything about management - information send and other organisational themes of the project?

Perfect <3

Small amount of free time in the hotel, but other things perfect 💜

For the next project, the visits to the museums could be improved. It would be a better experience if a guide explained the things we were seeing.

I enjoy it so much i think that it's just the best way to do this

I've noticed that not everyone integrates well; some are very young and perhaps don't fully know the importance of communication and integration. For future projects, we could look for ways to ensure everyone is included (specially when we have free time), so that being of different nationalities doesn't prevent us from talking and exchanging cultures. It's been a pleasure being in Cyprus; Bobbie and the entire organization have done a fantastic job! Thanks for all

You are amazing!

Te themes of the project are so very important
the hosting organisation did a really great job organising all this !!

Any comments about the activities?

The activities are very beautiful and i want to repeat them.

I feel like the visits to the youth councils could have been both at the same place, or at least the same day, as we had very limited time. This would provide us with more time for other sort of activities. Other than that, I think everything was very well organized and cared for! Thank you.

All the activities were good. In my opinion, the best one was today: the festival at the high school. We enjoyed the real culture of the island and connecting with the local people.
the first went a little bored but i enjoy the other ones

All the activities have been very comprehensive, inclusive, and cultural. We were able to learn about many aspects in just a few days

Some activities listed in the plan were missing (eg castle, University)

That was really nice

Everything was well organized
The activities are so good i want repeat them in the future

Some a activities were missing

Accommodation and Food of the Training

Accommodation and Food

Anything that you want to mention about the accommodation or food?

Anything that you want to mention in particular that will make us better about our future projects which have to do with the accommodation place and the food in the project

The accomodation are very good, bit I don't like a lot the food

On Wednesday we didn't receive a good lunch for the go. Maybe if the sandwiches had more condiments or were bigger, we would have felt more fulfilled. Later on we felt the need to go to a restaurant by ourselves or order some food.

The food si so good i love it

Perfect! I love that

Low vegetarian options

i want to be alone im my room/apartament because my intimacy is so important to me but i have a new friend so thanks for that

The rooms were very clean, and having food included was really convenient. The apartment is beautiful

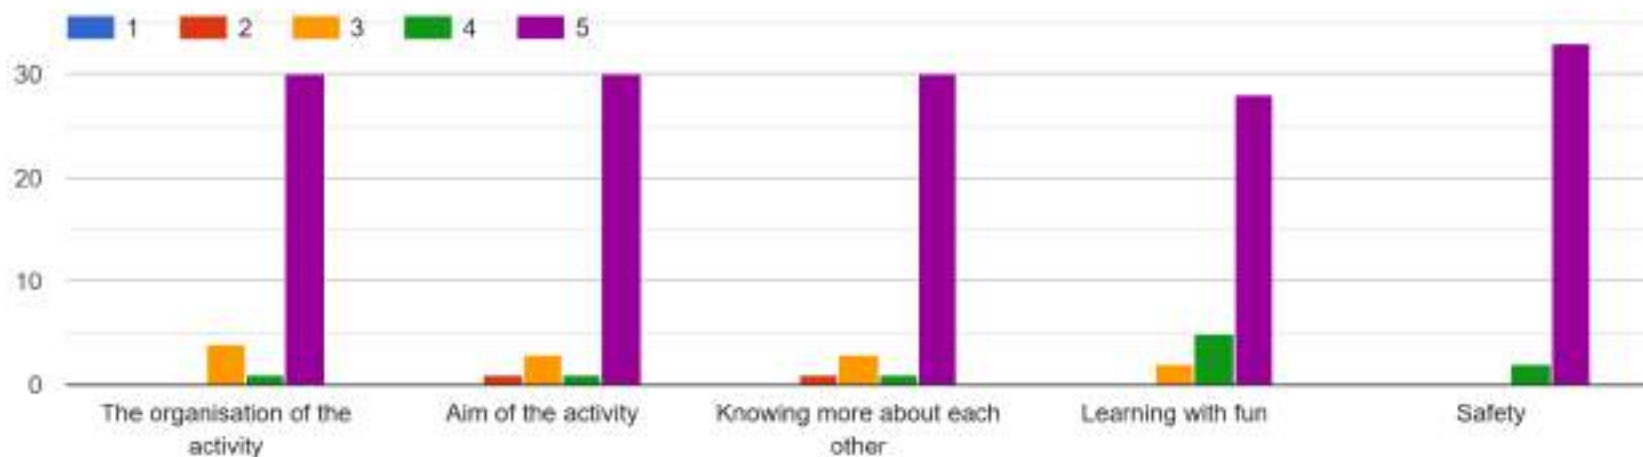

The food doesn't so nice, but the Chinese food was really good

No complimentary set in the bathroom, no hairdryer, no vending machine for snacks, no coffee available when restaurant was closed
Ox!

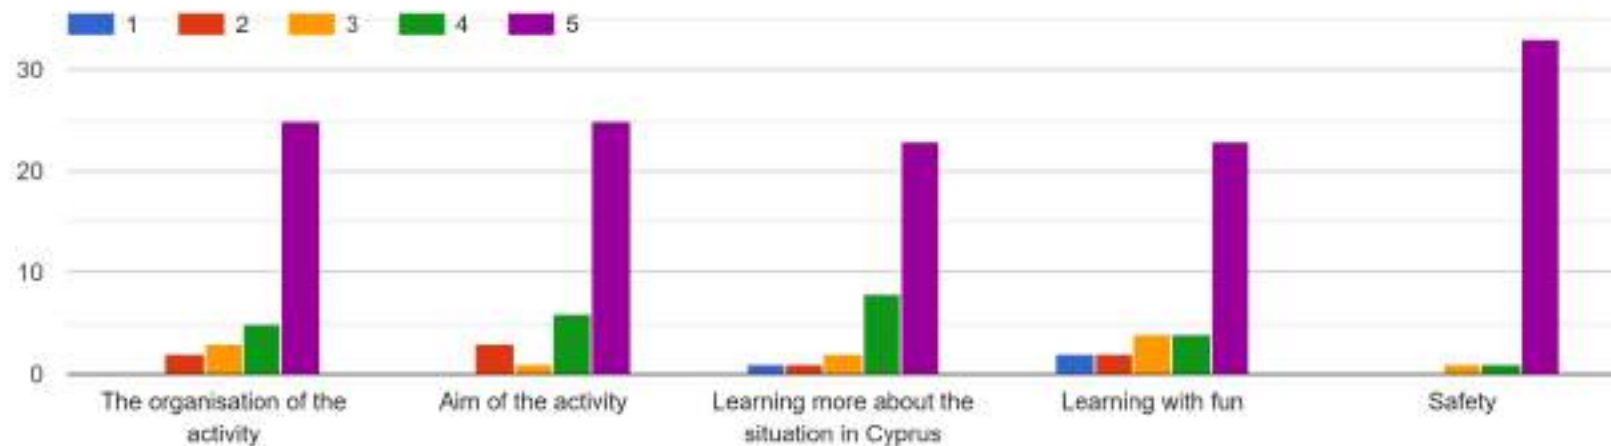

Everything was perfect: the food, the rooms, and the hotel staff. As a personal suggestion, we would need more free time after the activities to build connections with our new friends.
